

60T Hydraulic Pump Hoist

120,000 lb. capacity

44 ft. high telescoping mast

6 ft. maximum layback

The main winch has a 120,000 lbs. capacity with the 8-part line and the block speed of 38 feet per minute. The winch drum has the capability to “double wrap” the cable that gives you twice the speed with half the capacity.

The optional sandline winch is operated power-up and power-down. The sandline has a bare spool lifting capacity of 13,000 lbs. at 300 feet per minute. Sandline spool capacity is 3,000 ft of 9/16” cable.
